

FEATURES

- Independently tested to meet the static and dynamic strength requirements of EN 358 (fall prevention test standard, 2000 Edition)
- Rated to 15kN
- Two-piece, pull through adjuster buckle forged in AL-7075 T6 aluminum with hard anodized coating
- Load-bearing **FRONT ANCHOR LOOP** for easy access lanyard attachment
- Includes removable **LRB™ FLOATING LOOP** for attaching a lanyard at variable positions
- Load-rated stitching—contrasting color for ease of inspection
- Pre-curved shaping for better fit and added comfort
- Low profile padding adds comfort for long term wear
- 3 ways to wear: wear alone, over a **MRB™ INNER BELT** or as an insert in our **MRB™**
- **CRITICAL USE AND SAFETY WARNINGS ARE CONTAINED THROUGHOUT THE OPERATOR'S MANUAL. FAILURE TO ADHERE TO THESE USE AND SAFETY WARNINGS MAY RESULT IN SERIOUS INJURY OR DEATH.**

DESIGN

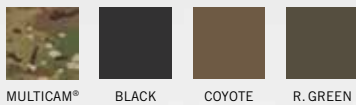

The Crye Precision **LRB™** is a stable and comfortable load-rated belt. It works great as a duty belt, a gun belt, and/or a gear belt. Independently tested to meet the static and dynamic strength requirements of EN 358 (fall prevention test standard). This belt is flexible for comfort but sturdy enough to support a holster and other heavy gear. Wear alone, or over our **MRB™ INNER BELT** or use as an insert in our **MRB™ OUTER COVER**. Low-profile molded VELCRO® hook on inner surface mates securely to any VELCRO® loop belt.

With the included **LRB™ FLOATING LOOP**, you can attach a restraint to virtually any point along the belt, making it an ideal choice for aerial platforms. Add the optional **LRB™ LEG LOOPS** and you have a mountaineering harness tested to the strength requirements of EN-12277. Made in the US from US materials.
